

IMPORTANT SHIPPING INFORMATION
THIS ITEM VACUUM SEALED - OPEN IMMEDIATELY

To reduce your shipping cost and for better protection during shipping, this item may ship unassembled. Foam slabs may have been rolled and compressed vacuum sealed and wrapped with two protective outer layers the same day it shipped. Vinyl covers will be securely packaged separately.

As with all foam products, they will bounce back quickly to their original shape and will be unaffected by the compression process if opened within one week.

Because this item may have been in transit for many days it is **IMPORTANT THAT YOU OPEN IMMEDIATELY** so the foam components may decompress as soon as possible.

DO NOT remove outer packaging with a knife or box cutter as you may cut through the packing material and into the enclosed item. Instead **CAREFULLY** cut away the two packing layers using scissors.

We recommend you assemble your pit soon after opening the compressed foam slabs. This may make it easier to fit the foam into the cover before it fully expands. Foam slabs will still completely expand inside the cover. Vinyl covers will be more pliable if warmed by sunlight and will help release any wrinkles in the vinyl.

IMPORTANT CONSUMER PRODUCT HAZARD WARNING — PLEASE READ!

A possibility of serious injury, including paralysis or death, is inherent in any activity involving motion or height. Equipment with which this notice is included is intended for use only by properly trained, qualified persons under supervised conditions. Use without proper supervision is dangerous and should not be undertaken or permitted. Know your limitations as well as the limitations of your equipment. Consult a qualified instructor before attempting any new activity or skill. This equipment must be used with proper mats, spotting equipment and qualified spotters for each activity or skill. Use this equipment only for its intended purpose. Do not modify equipment in any way. Inspect each component for damage, loose fittings or signs of wear before each use. Do not use if you have any concern as to the condition of this equipment. Test unit for stability prior to each use. Do not use if you have any concern about the stability, condition or suitability of this equipment. Inspect warning labels and replace when marred or damaged. Before each subsequent use, re-check equipment stability and settings.
